

## IP Evaluation Checklist

UAF ID:	Disclosure Date:
Invention Title:	
Completed By:	Initials:

Mark one  
with an "X"

### Standard Evaluation

**Yes    No**

1.	Is more information required from the Inventor(s) to complete the Invention Disclosure?		
2.	Is there any experimental data suggesting that the invention works?		
3.	Does marketing the invention require further experimental verification?		
4.	Do the Inventor(s) have funding to carry out research on the invention?		
5.	Is there likely to be a commercially significant U.S. market for this technology?		
6.	Do government rights exist which severely limit the primary market?		
7.	Is this invention an antibody, reagent, or software?		

### Case Specific Evaluation

Check if applicable

8.	Currently licensed, optioned, or in negotiations with a company	
9.	Research plan from investigators outline required experiments	
10.	Funding agency has indicated that the grant is, or will be, approved	
11.	Inventor(s) has/have resolved such issues in the past	
12.	No further research needed	
13.	There is a significant secondary market	
14.	Potential market is unusually large	
15.	Other (please specify):	

### Patent Evaluation

**YES    No**

16.	Has the invention been disclosed at a public meeting or published?	
17.	Should it be submitted to outside patent counsel for evaluation?	
18.	Positive initial patentability opinion by outside patent counsel?	

### TLO Disposition Recommendation to the P&C Committee

Check if applicable

19.	Protect, market and license as appropriate	
20.	Provisional patent application only	
21.	Copyright registration to be filed	
22.	To be marketed as tangible research property (i.e. antibodies or reagents)	
23.	Additional information requested from Inventor(s). Bring back to P&C Committee	
24.	Not a promising investment for the University. Process letter to offer patent rights to funding agency, or if not applicable, directly to Inventor(s)
